Attorney R. E. Rodgers Found Dead In Bed

Tuesday morning about 8:15, the close friends of Judge R. E. Rodgers were shocked to find that he had passed away sometime during Monday night, in his room adjoining his office, on 8th Street.

The offices used by Mr. Rodgers were formerly the Gibson Lumber Co. place, east of the Safeway Store. On Monday night, Mr. Rodgers left word for the laundryman next door to get his laundry Tuesday. When the laundryman went for the clothing he could not arouse anybody and thinking the man had probably left town, asked Bob Whiteley, a close associate, about him. Mr. Whiteley knew Mr. Rodgers had not left for any place and went to investigate. He found the front screen latched, and he had to climb a back fence to get to the rear door. There he quickly observed the man on his bed, apparently lifeless. Mr. Whiteley reported to the laundryman and hastened for a doctor and Justice of the Peace, Grogan Turner.

They found that perhaps the man had been dead several hours, and that death probably came from natural causes.

Generally Mr. Rodgers was referred to as "Judge". He had been a familiar figure about Hamlin for perhaps 25 years, and had practiced law much longer in Jones County, having resided in Anson before coming to Hamlin. He was recognized as being well versed in law. He was a constant student and reader. The last book he ever bought was one of poems and it is reported that this book was on his bed by the side of the body when found. For a year or more Mr. Rodgers' health had not been good and his doctor asked him to quit climbing steps, hence his ground office.

Judge Rodgers was not a talkative lawyer. He liked to listen but would speak up quickly if conversations drifted into channels that he knew were leading to misstatements or error. Mr. Rodgers was a Mason, and a member of the Hamlin Rotary Club, honored and beloved by all who knew him.

Mr. Rodgers is survived by two sisters, Miss Jessie Rodgers, and Mrs. Winters of Anson; and one brother, Richard Rogers of Quanah. The body was taken to Anson by the Lawrence Funeral Home of that place and funeral services were conducted in Anson at an early hour Wednesday morning. Burial was at Alvarado.

A number of Hamlin people attended the funeral, including many members of the Rotary Club, the pallbearers being Rotarians Tom Teague, Ivy Witt, Elmer Feagan and Frank Waggoner. The others were Mr. Dunwoody and G. Pritchard.

Mrs. A. Tinsley, of Midlothian, came last week for a visit with Hamlin friends. Mrs. Tinsley formerly lived in the Hamlin community and has a host of friends who enjoy her visits among them.

Willie Roe came down from Seymour Saturday and visited friends and relatives. Martin Decker returned home with him to spend a few days with him and other relatives.

Mrs. H. O. Cassle and family were called to Stephenville Saturday by the death of Mrs. Cassle's mother, Mrs. Jennie C. Davidson. Burial took place on Sunday. Mrs. Cassle remained during this week.

The Train in the Bible

A minister, traveling on one of those way-trains that stops at every station on a side line, was reading his Bible.

"Find anything about this railroad in that book?" asked the conductor, as he reached for the minister's ticket.

"Yes," replied the preacher, "in the very first chapter it says that the Lord made every creeping thing."—Santa Fe Magazine.

A Common Ailment

A medical journal advances the theory that "Man is slightly taller in the morning than he is in the evening." We have never tested this, but we have certainly noticed a tendency to become "short" toward the end of the month.—L. & N. Magazine.

BAPTIST CHURCH

Miss Maybelle Taylor of Haskell, Texas, a returned missionary from Brazil, will be the guest speaker for the First Baptist church Sunday morning. Miss Taylor has been in the States for several months following a term of service as a teacher in Brazil. She is an inspiring speaker with a real message concerning our mission work and its needs. Those who have heard her have a more vital interest in missions and a greater zeal to have a part in its work. Let us have a good attendance Sunday morning and Sunday evening for Miss Taylor's messages.

The Vacation Bible school commencement exercises were held at the regular preaching hour last Sunday night. Certificates were awarded to 119 boys and girls. The school had a total enrollment, including pupils, teachers, and general officers of 153, and an average attendance of 99. As a result of the school there were several conversions and the pastor baptized five.

The pastor will close the meeting with the church at Munday this coming Sunday night. The meeting is being well attended this week.

Anson Club to Hold A Golf Tournament

Anson — Plans are being made here for an invitation golf tournament to be held August 8, 9, and 10 on the new sporty nine-hole grass green course.

Qualifying rounds will be over on the 8th and the tournament will start that day. Several other entertainment features are being planned by committees for the visiting golfers, including a swimming party and a barbecue.

The local course is now in the best shape it has been since it was finished in 1939 and attracts quite a few out-of-town golfers on Sundays.

Invitations are to be sent to all leading golfers in West Texas to participate in the tournament.

Mrs. W. C. Russell is spending a vacation in Ruidosa with her sister-in-law, Mrs. G. Cleve Dunn.

Thad Hardin, Jr., of Ft. Worth, is visiting his parents and other relatives here this week.

Money may not always buy happiness, but it is helpful in choosing the kind of misery that is the least painful.

Mr. and Mrs. O. G. Harvey and Beverly Ann returned last week from a two weeks' vacation at Littlefield, Lubbock and Clovis, New Mexico.

Mrs. L. W. Weaver of Weatherford is spending the week here with her daughter, Mrs. Irvin Smith and family. She will return accompanied by Mr. and Mrs. Smith and little daughter, Benita Irene.

He who builds according to every man's advice, will have a crooked house.—Danish Proverb.

Mr. and Mrs. Floyd Carlton, well known young couple, formerly of Hamlin, announce the adoption of a little lady, Cathey Jane, at their home in Winnfield, La. The adoption was legalized on June 15 in New Orleans. Floyd is a son of Mr. and Mrs. A. H. Carlton and Mrs. Carlton is a daughter of Mrs. H. C. Walker.

Dr. Frank Johnson, who recently returned from Washington where he had done interne work the past year, has accepted a position in the Staff of the Texas State Health Department. His first location will be at Tyler, Texas. Dr. and Mrs. Johnson left Tuesday for their new home. It was the hope of Hamlin people that Dr. Johnson would establish his practice in this community, but since he is going into a wider field his many friends will wish for him all success.

Attended Firemen's Training at A. & M.

Last week F. M. Crow, known to most of us as "Pistol" Crow, and Brad Rowland, the smiling boy at the post office window, attended the State Firemen's Training School at A. & M. College.

Crow took the course in Fire Marshal Inspection and Prevention course, and Rowland took the General Course, meaning how to operate fire equipment.

This course is to train men to help prevent and control fires in a community. The City paid the expenses of Hamlin's representatives, and the cost is passed on to the property owner in a 3c lower rate.

CHURCH OF CHRIST

We are placing special stress now upon Bible study. New classes have been created and additional teachers appointed. Attendance increased approximately 75 per cent within two weeks. We are eager to have everyone enrolled and in attendance with these classes who is interested in studying with us. Why not make the coming Lord's Day the time for your enrollment. We will be happy to have you worship and study with us in any or all of our services.

Hitson Family In Bad Car Wreck, Thursday

At the junction of the roads west of Hamlin, where one road goes to the Gypsum plant and the other to the oil fields, in the Young community, a bad car wreck took place last Thursday morning.

Morris Jean and two children, Sarah and Billy and a sister-in-law, a Miss Berry, were in their car when a car from Lamesa crashed into them on the turn. Mr. Jean and Billy were hurt the worst and were carried to the Rotan hospital, and reports are that they were able to be dismissed by Tuesday of this week. The others were only slightly jarred and scratched. The glass in both cars was all broken out.

Novice Oilers Vs. Gen.
Crude Oilers Sunday

Last Sunday Hamlin's General Crude Oilers went up against the Army, the 158th Inf., from Camp Berkeley, and it was a hot game from start to finish.

The Army lost the count in a 5 to 2 bombardment.

PLAYING NOVICE SUNDAY

This Sunday, August 3, Hamlin will be tackled in their own home lot by the famous Novice team, who about three weeks ago gave the Crude Boys a thrashing to the tune of 3 to 0. Reports are that the Novices are coming with some big guns to double their kill of the former game.

Fred Hulsey, generalissimo of the Home Oilers says they need all the backing Hamlin fans can bring up this time, so unbutton your Sunday shirt, and come along, there is a nice cool seat from which one can see the hot balls come and go. That means from 3:30 P. M. til it runs nine innings or more.

BACK TO OLE SWIMMIN' HOLE

Last Sunday J. J. Waggoner drifted back to the ole' Swimmin' Hole in Mills County. It was perhaps more than 50 years ago that Jerry Waggoner floundered in the swimming hole far out in the pasture. In those days swim suits had not been invented and according to Mr. Waggoner's report, he didn't have one last Sunday. And say, Jerry was alone in that clear swimming hole, deeper'n his head and clear to the bottom.

Mrs. Annie Sullivan of Odell, Texas, is visiting her daughter, Mrs. Jim Young south of Hamlin.

Mr. and Mrs. Loys Scott of Aspermont, formerly of Hamlin where Mr. Scott was with the engineers' office of the State Highway Dept., were here visiting friends Sunday.

W. L. Cash and wife motored down to Christoval Thursday and spent the day Friday attending an old folks reunion. They had a good time with old friends.

Misses Ruth Welch of Rockville, Indiana, and Marilyn Cooper of Marshalltown, Iowa, were guests of Miss Mary Beth Moody till Wednesday of this week when they left for Marshalltown, Iowa, to visit with Miss Cooper for a short while. Miss Moody returned last week from Boulder, Colorado, where she took special studies in the University. The two young ladies coming home with Miss Moody were also students in the University.

Miss Gladys Martin Says Peach Pickles

Since there is a "peach" of a peach crop, this is the time for you to use it to take out a little bit of extra insurance toward having two fruits daily on the family table during the remainder of 1941 and 1942.

Some recipes that you might like to try follow:

PEACH PICKLES

- 2 gallons of peaches
- 1 gallon sugar
- 1 quart vinegar (strong)
- 2 sticks cinnamon bark
- 1 tablespoon cloves
- 1 tablespoon allspice

White clingstone peaches are preferable. Select firm fruit. Wash well. Remove the thin skin carefully. Cook spicy syrup until thick, and pour over fruit and let stand overnight. Drain off juice and boil until thick. Then add fruit. Do not stir but keep under syrup until thick, and pack hot into sterilized jars. Cover with syrup. Seal, and store in a cool, dry place.

PEACH PRESERVES

Peaches that are not too ripe that will hold their shape, but ripe enough to give a good flavor may be used. Peel and prepare the peaches as for canning. If clingstone peaches are to be used, cut flesh from pits. To each pound of measure of fruit, add 3-4 pound or measure of sugar. Combine sugar and fruit in alternate layers and allow to stand over night to extract juice. Stir gently while heating slowly to boiling. Or you can prepare a syrup by adding 1-2 cup of water to each one and three-fourths cups of sugar. Add fruit and boil rapidly. Pour into hot sterilized jars and seal. Store in a dry, dark place.

The Strange Case of Finland

—In this world of strife, one strange thing after another bobs up. Only a few months ago the humble cry for help came from Finland, and as the Russians were beating the life out of the country.

—Today, Hitler, the modern god of war, has beguiled little Finland into a camp that leads to dishonor. But perhaps this was the only path out for the little northern country, whose characteristics have been so admired by the Americans and the English.

—To whom will Finland now call for help? From whom will she seek financial support? Maybe the German influence will be so generously helpful that they can tell the world, that so recently sympathized with them, to go to. Maybe so.

—What will be the outcome of America's contributions and loans to Finland? But Finland is but a small speck in the great northlands of Europe. Was it her fate to make a choice between two evils? In this case of "might makes right"?

—Simply told, the Finland case is an example to prove that it is dangerous, or to say the least of it, wasteful for this country to become too generous.

—America enjoys more than an abundance of all the good things of the world . . . more than we ourselves can consume, if we may judge consumption on the principle that "those who work, may eat." Yet some people seem to feel that this country is not a good place in which to live. So again we come to a case of comparisons. If one cannot compare then he is more than likely to assume the wrong conclusion.

—A thousand questions could be asked, about any country these days . . . why did not Finland continue neutral in the Russo-German war? Or was it a case of turning on an old enemy dog while he is standing up against another enemy . . . there is so much human hatred that a whole country might endure one enemy to inflict destruction on another . . . Finland, what of your future freedom?

—T & T—

If You Run Out of Something to Do

—There is no excuse for one to run out of something to do these days. About the time you think that is the situation, you will discover that "here it is the end of another tax period". Then you begin to fill out the report for the past three months

and if you have the dough, away goes your check to the Internal Revenue Collector.

—Pity the American who has no taxes to pay. More the pity for the fellow who hates to pay taxes, for benefits to himself or his posterity. It is as impossible to think of running a strong government without taxes as it is to operate a good business without customers.

—As the years go on, gradually Americans will realize the greatness of this nation's Social Security arrangements. Ignorance is generally the cause for hating one's government. Especially is this true in this land of wide-open considerations of all matters that concern the welfare of the people. This is a complicated age, and there is more to every circle of life than many people stop to learn about.

If you run out of something to do, just dig out your tax report and get it up to date.

—T & T—

If Congressmen Don't Quit Telling Lies

—Maybe the members of congress, especially in the senate, do not realize how closely the public follows them these days. They ought to realize.

—One common expression, perhaps from certain old style "courtesy" is to refer to some "destructionist" and "one of the ablest and one of the most courageous men in the United States". Any member saying that about a man who he knows full well is not proving to be such a great guy, is simply speaking a falsehood.

—Not so very long ago a certain, so-called statesman died and the amount of lying about his greatness would choke a jungle monkey. A little more bare-handed sincerity and not so much "blarney" would be welcomed by most patriotic Americans. It does not pay an individual or a group of individuals or a nation to lie about anything. Talk of "sincerity" to appease the appeaser is pure hypocrisy.

—T & T—

What of Aluminum?

—Hamlin community has made a creditable showing in aluminum collection, in spite of a lack of organization.

—The box at the John T. Day Hardware store has been filled and emptied and refilled several times. The big show window in the vacant building has quite a pile of valuable aluminum. All this has been accomplished because the people are anxious to show that they want to do something that counts.

—It is important to remember that all the scrap aluminum is to be sold at established government prices as junk to smelters and the money received then goes into the Civil Defense fund. So after all, perhaps that piece of aluminum means only a small amount to such a fund, and still it also means accumulated aluminum for defense material, or some day, in after years, your old aluminum may come back to you in the form of a new utensil. Keep bringing your old aluminum, till what is on hand is hauled off.

—T & T—

Who Must Do

The Hammering?

—A week or so ago this paper had a sharp article about the condition of the East Cemetery. One reader of the Herald said when he read it, he thought it more important to keep things clean for the "living". Well, that's a good idea but the dead and the living are different. If some people are alive and don't give a damn about how things look about them, those who do care, can blame such laziness on the living, but the dead are dead and it is up to the living, those who care, to make their last resting place a decent looking place.

—Every week somebody wants their home newspaper to hammer on something or somebody. Perhaps there is no more appropriate person in the community to raise hell than the editor. So much it seems to be raised, and what's an editor for anyway? He is about to first person to see what will work and what will not work for that's his business, and he must think a long period ahead

God Bless America

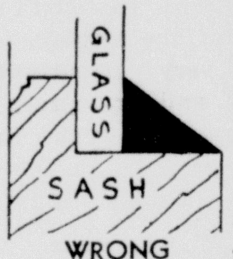

(BY IRVING BERLIN)

While the storm clouds gather
Far across the sea,
Let us swear allegiance
To a land that's free;
Let us all be grateful
For a land so fair,
As we raise our voices
In a solemn prayer.

God Bless America,
Land that I love
Stand beside her and guide her
Through the night with a light
from above;
From the mountains, to the prairies,
To the oceans white with foam
God Bless America,
My home sweet home.

PUTTY FAILURE OFTEN DUE TO POOR APPLICATION

When you see the putty cracking away from your windows in big chunks, don't be too quick about blaming it on the putty. The chances are

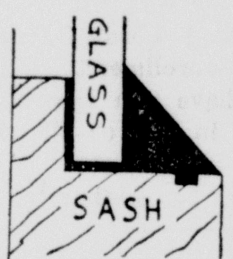

the putty failure is due to the way the putty is put on. Like so many other things there is a right and a wrong way to apply putty. The right way takes a little more time and material,

which is the reason you do not find it on windows that are made to sell at a price.

In one sketch, we show you the ordinary way that putty is applied to

windows. This method is quick and cheap, but it is usually temporary because swelling of the wood from the inside causes the putty to crack off.

Wood and glass do not come in contact with each other. Notice also the putty groove which anchors the putty.

I GIVE YOU TEXAS

(By BOYCE HOUSE)

The immortal Joseph Weldon Bailey once declared that the greatest blessing that the Lord had bestowed upon Texas was in putting Oklahoma between this State and Kansas. Similarly, it could be said that another great blessing is that Texas is next to Mexico, that incomparable, year-round vacation land — because it is necessary for the host of tourists from all parts of the United States en route to Mexico to pass through Texas, leaving in their wake a trail of gold which benefits all lines of Texas business.

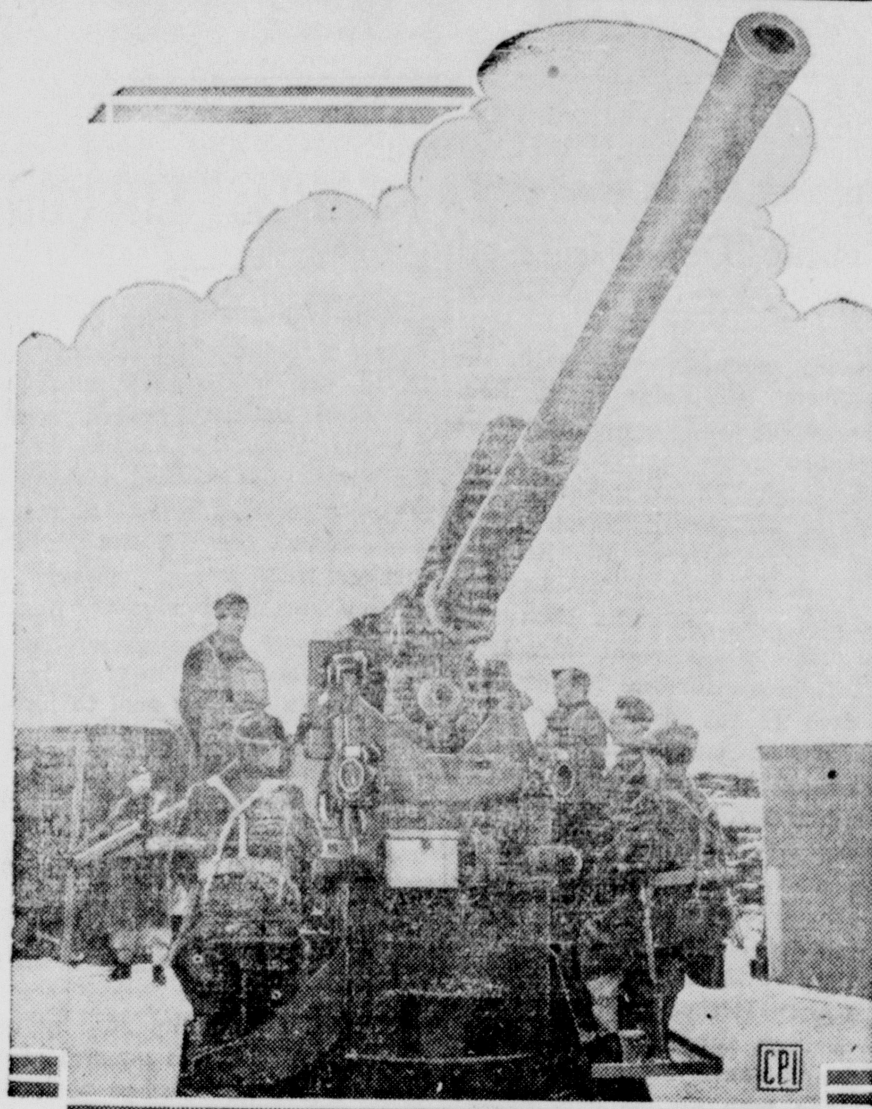

Furthermore, Texans are fortunate in that they do not have to spend long days of travel to reach Mexico but can climb on a train or a bus or get aboard the family automobile and, in a few hours, be south of the Rio Grande.

Your columnist is just back from such a trip. (It was the second visit to the Southern Republic, the other being two years ago by rail). The adventure begins when you cross the International Bridge at Nuevo Laredo after having filled out a travelers' card for each member of the party above 15 and having arranged. (for a nominal amount) a bond that you will bring your car back. Inspection of baggage is quickly and politely done and you soon find yourself rolling through a wild, but interesting, landscape on the world's longest straightaway — 45 miles. Every so often you cross a bridge over some creek—each has a name, as Arroyo de Death or Arroyo of Hot Eye, a name that no doubt stands for a story.

You swing across the slants of Mamalique Pass, a fine piece of engineering, and arrive in Monterrey, 145 miles south of the border, a city of industry and modernity, at the foot of famous Packsaddle Mountain. We drove around much of the city, admiring the beautiful homes, fronts flush with the sidewalk—fronts that are dyed rich green or deep purple or intense scarlet; the shops full of silver, tapestry and basketry, and the cathedral with its bells.

After a night at the Hotel Ancirra, the journey is resumed. Mile after mile of changing scenes unreel; with luncheon at the white, new Cerro Gordo Hotel in Victoria. As you glide along, you see a mother walking through the bright sun-

HEMISPHERIC DEFENSE

—Passed by Censor.

ALONG the coasts of Canada, in the far north, in Newfoundland and elsewhere Canadian soldiers maintain ceaseless vigil. They are on guard, not only for the defense of Canada but of the whole Northern Hemisphere. For the work they do and the places where they are stationed are part of the plan of the Permanent Joint Board of Defense which was created following the conclusion of the Ogdensburg Agreement in August 1940. That agreement calls for coordination of plans between Canada and the United States for defense of either country against possible attack. The photograph shows a typical Canadian anti-aircraft gun crew on duty somewhere on the east coast of the Dominion.

light, her shawl extended to shield two small children as well as herself; a procession of pilgrims, all in white, headed by men transporting two church bells suspended from poles; babies carried on the backs of mothers; a man (stowaway, perhaps) hanging from the back end of a bus; men, each carrying a machete, the knife that is almost long enough for a sword and is used to chop one's way through the jungles; and cornfields high upon the mountain side and to the very tops, at unbelievable angles.

Women, with carriage as erect as a Caca Manana showgirl, are carrying pots on their heads, hands at their side, and they turn their heads to look at the passing car. Men are bearing heavy loads of wood or even a small log on their backs, the burden being held in place by a leather straps that passes around the forehead. Even little children have miniature loads. An old man with some fruit trudges by on his way to market. There are little towns every few miles on the mountain slope and you think of life being lived with such a hamlet as the center and with many perhaps never venturing more than 25 miles away.

And so late in the afternoon into Valles to spend the night.

(NOTE: — Folks, remember the people Mr. House speaks of in the above description are almost pure native Mexican Indians, the bulk of Mexico's population — a harmless race when not led by exploiters.)

Two men were talking. One was a Primitive Baptist. The other said, "Your church doesn't have many members." To which the first one replied, "No; we turn our members out for lying and your church wouldn't have many members, either, if you did that."

Surprise!

Apparently Uncle Sam's Army has its saluting — and other — troubles, too.

A man who's just joined the training passed a captain without saluting. The captain stopped him. "Take a look at me," he said. "Do you attach any special significance to this uniform?"

The new chum looked him over, then grinned. "Why you lucky dog," he exclaimed, "you've got a suit that fits!"—Answers.

The Best Cosmetic

It is estimated that the women and girls of America spent last year not less than \$500,000,000 for rouge, face powder, and other so-called aids to beauty. There is a recipe for beauty that is far better than any of these, but it begins on the inside and works out.

"Every pleasing thing you do makes you a bit more attractive," said a teacher to her class of girls. There must be a beautiful soul within if the countenance is to be beautiful. Every act of kindness, every expression of love leaves its impression upon the face, softening the hard lines and smoothing out the wrinkles in a way that no outward application of cosmetics can possibly do. And best of all, it is permanent.—Onward.

J. B. Terrell and wife were hosts to their store force in a picnic supper in the City Park Wednesday night. Those present with Mr. and Mrs. Terrell were Mr. and Mrs. Tom Neely, Mr. and Mrs. Jesse Bonds, Mr. and Mrs. Garland Feemster, and Mr. and Mrs. Lonnie Kidd.

M. O. Kimmey, the Safeway Market man, is off for this week on a vacation with his wife and baby. They are spending the time in San Angelo and Eldorado. E. R. Brosseau is serving in his place.

Mrs. Richard Hinkle of Midland is spending the week here with her parents, Mr. and Mrs. Bowen Pope. She will return Saturday night accompanied by her little son, Harry Bowen, who has been enjoying three weeks with his grandparents.

Mr. and Mrs. Welburn Carter spent three days in New Mexico last week, and while away, visited Carlsbad Caverns.

"Well, I didn't," said Mollie. "I just slapped her face and stayed."

POT SHOTS FROM McCAULLEY

BY GEO. DARDEN

Rev. C. E. Dick left last Sunday for Girard, Kent County, to preach for a revival meeting which began last Friday. Bro. Dick will return to McCaulley next Sunday as the Baptist meeting begins then in McCaulley. George Matt Darden, Jr., accompanied Bro. Dick to Girard to visit with grandparents for a week.

Mr. and Mrs. Jack Johnson and son Dee, Mr. and Mrs. J. T. Rhoten and daughter Ruby Dee left for a vacation last week, and while away they will visit Mr. and Mrs. J. W. Toles and Mr. and Mrs. Bud Goff of Wichita Falls, then to Point, Texas, for a visit with Mr. and Mrs. Fred Bingham and L. W. Plummer and to Commerce, Jacksonville and Fort Worth for a visit with friends and relatives.

Oak R. Burnham who landed in this community fifty two years ago, on July 22, is one of our most successful farmers and stockmen. Mr. Burnham's farm is located about 3 miles north of McCaulley and if Mr. Burnham has a hobby, it is registered Hereford cattle, and he owns something like one hundred head of as fine a herd of White Face cattle as we have seen in many moons. On the Burnham farm are acres of cotton, wheat, oats, sudan and other feeds along with a fine herd of Jersey milch cows and a fine flock of chickens. Mrs. Burnham devotes a lot of her time with her chickens and milch cows and when she goes to town she takes something to sell.

Folks like the Burnhams, who do not depend all together on cotton for a money crop are what we call really getting along.

Mr. and Mrs. Joe Miers and Mr. and Mrs. Bill Fancher spent two days fishing on the banks of the Clear Fork near Lueders a few days ago and we understand that the trip was an enjoyable one except for a few moments when Mrs. Miers fell in the river.

Milt Carter, an old timer in this community, was a visitor in McCaulley last Saturday and Mr. Carter told us to keep pouring it on Hitler, and if our typewriter doesn't burn up we will continue to do that very thing.

Mr. and Mrs. Ray Martin and children who live on the Plains are visiting relatives in McCaulley for a few days.

Rev. and Mrs. Potterfield and her children are spending the week with Rev. and Mrs. Ottinger. Bro. Potterfield is conducting a revival meeting at Neinda.

Mrs. Calvin Stretcher and son of Dallas were visiting in the home of Mr. and Mrs. Sherman Houghton last week end, also visiting in the Houghton home is a daughter. Mrs. Kate Rainey of Midland.

Mr. and Mrs. Virgil Stephenson of Big Spring and Mr. and Mrs. Roland Stephenson of Tucumcari, N. M., were visiting their mother, Mrs. Harold Stephenson in McCaulley over the week end.

Mr. and Mrs. Louis Yates of Brownwood are visiting parents, Mr. and Mrs. C. P. Yates in McCaulley.

Quite a number of base ball fans of this community went over to Hamlin Sunday to see the ball game between the 158th Infantry of Camp Berkeley and the General Crude Oilers.

Mrs. Bill Pickron has returned home after a two weeks' visit with relatives in East Texas.

Mr. and Mrs. Lewis Earl Madden, Mrs. Jayro and little Miss Frankie Sue Madden visited the great Carlsbad Caverns last Saturday and Sunday.

The Baptist meeting begins next Sunday and will continue for two weeks with the pastor, Rev. C. E. Dick, doing the preaching. Services will be at the Tabernacle and as the farmers are about up with their work, good crowds are expected to attend.

A lot of folks are dusting their cotton for flea hoppers and other insects, and maybe it's all for the best, however, we never saw cotton do better, for the past week it looks like a bale to the acre in many parts of this community.

O-O-O-O

It looks like war with the Japs in the Pacific and by the time this goes to press the first shot may have been fired. Our Government has petted the Japs so long by selling them oil and other necessary war products that we believe that the Jap government had about come to the conclusion that Uncle Sam would keep on petting instead of fighting. Perhaps our government was playing for time and in the meantime thinking there might be a chance to avoid war with Japan. Hitler, beyond a reasonable doubt, put a lot of pressure on the Jap government as well as the Vichy government. France is a badly beaten nation and they can do only what they are told to do by Berlin or else. It seems as if the war machine of Germany has bogged down in Red Russia and if England continues to bomb Berlin the people of Germany will likely take the jitters and Adolph Hitler won't be so popular any more. It has been said by high ranking officials that the United States navy could whip the Jap navy in a few weeks, that is if the Jap navy would come out in the open and fight. We say, if war comes, let's don't wait for them to come out and fight; why not chase 'em down and finish the thing in a hurry. The sooner this war is over, the sooner people of all the world will get back to civilization.

A DARDEN-O-GRAM

Rastus was in trouble again, and the judge asked him if he were guilty or not guilty. "Guilty, suh, ah thinks, but ah'd rather be tried 'n make sure of it."

Mike—Did you ever see a company of women silent?

Mike—When?

Ike—When the chairman asked the oldest lady to speak up.

The man who brags: "I run things in my house," usually refers to the lawn mower, washing machine, vacuum cleaner, baby carriage and errands.

Advice, like snow, the softer it falls, the longer it dwells upon, and the deeper it sinks into, the mind.—Coleridge.

"Look at that one—the one staring at us through the bars. Doesn't he look intelligent?"

"Yes. There is something uncanny about it."

"He looks as if he understood every word we're saying."

"Walks on his hind legs, too, and swings his arms."

"There! He's got a peanut. Let's see what he does with it."

"Well, what do you think about that? He knows enough to take off the shell before he eats it just like we do."

"That's a female alongside him. Listen to her chatter at him. He doesn't seem to be paying much attention to her though."

"She must be his mate."

"They look kind of sad, don't they?"

"Yes. I guess they wish they were in here with us monkeys."

Mrs. Blank—It's cold tonight, Sara; you had better put an iron in your bed to warm it up.

Sara—All right, mum.

Mrs. Blank (next morning)—How did you sleep last night, Sara?

Sara—Pretty good, ma'am. I had the iron almost warm by morning.

He who strikes first admits that his ideas have given out.—Chinese wisdom.

The Mrs.—I was a fool when I married you.

Mr.—I suppose you were, but I was so infatuated at the time I didn't notice it.

A Negro hired by a movie studio was informed he was to do a comedy scene with a lion. "You get in this bed," said the director, "we'll bring the lion in and put him in bed with you. It will be a wow."

"Put a lion in bed with me!" shouted the Negro. "No, sah! Not-a-tall! I resigns right heah and now."

"But," exclaimed the director, "This lion won't hurt you; he was brought up on milk."

"So was I brung up on milk," wailed the Negro, "but I eats meat now."

They were arguing as to whether it was correct to say of a hen "she is sitting" or "she is setting."

"The question," said the farmer, "doesn't interest me at all. What I want to know when I hear a hen cackle is whether she is laying or lying."

Waiter—How did you find your steak, sir?

Moran—It was just luck. I happened to move that piece of potato and there it was.
